

NIV TOREN

Electrical engineering student

Phone: 055-882-1022 | Email: torenniv@gmail.com | LinkedIn: [linkedin.com/in/toreniv/](https://www.linkedin.com/in/toreniv/) |

SUMMARY STATEMENT

Second-year Electrical Engineering student at Shenkar College, with strong programming skills in C, C++, Python and development environments like Arduino and Raspberry Pi. Proven fast learning abilities, analytical thinking, and diligence in problem-solving. Capable team player with experience from military and previous employment roles. Take responsibility and accountability to ensure thorough and complete execution of tasks.

EDUCATION

Shenkar Collage- Electrical Engineering student

2022-Now

Relevant Courses:

Programming: C, C++, Python

Projects include programing in Arduino and Raspberry Pi

Advanced Programming with Embedded Systems

Analog and Digital Circuits Design

Personal Portfolio Website Project (HTML/CSS/JavaScript)

Additional Achievements:

Full-Stack Development: Developed a personal portfolio website integrating front-end and back-end technologies (HTML/CSS/JavaScript).

Embedded Systems Experience: Implemented hardware and software solutions in embedded systems using Arduino and Raspberry Pi.

Technical Problem Solving: Successfully resolved complex IT issues during my role as a Helpdesk and Computer Technician.

Military Leadership: Managed knowledge and handled high-pressure situations as a communications systems technician during my military service.

Ben Gurion high school

2014-2017

Full matriculation certificate with honors, chemistry major. 12 full years of study

WORK EXPERIENCE

Helpdesk and technician | Maman- Cargo and handling terminals

2022-Now

As a Helpdesk and Computer Technician, I demonstrated proficiency in efficiently troubleshooting and resolving complex technical issues related to hardware and software. My comprehensive IT support capabilities enabled me to expertly diagnose problems and implement effective solutions, ensuring optimal functionality of computer systems. Adept at thriving in fast-paced environments, I consistently delivered high-quality service under tight deadlines, showcasing an ability to maintain composure and provide exceptional support during periods of intense workload.

Sales representative | Sunny communications

2021-2022

Extensive knowledge in technological sales, with an emphasis on sales of Samsung smartphones and tablets. The job included persuasion and service provision in addition to solving technical malfunctions.

MILLITARY SERVICE

2018-2020

Combat service (combat soldier in an armored corps) specializing as a communications systems technician and operational ICT fighter. Discharge with the rank of Staff Sergeant.

The positions combined knowledge management and many resources for troubleshooting, high functioning in stressful situations and a work interface with military units and civilian elements. Letters of recommendation from superiors.
